

SENIOR LIVING

Case Study

Multi-Location Senior Living Company

UNITED CHURCH HOMES®
Celebrating the Spirit®

Our Solutions

United Church Homes owns and operates many facilities throughout the United States.

- ICS reviewed their waste removal contracts and confirmed the services in place were truly the services they required.
- Our team completed a market analysis to determine if their pricing was competitive.
- We negotiated and secured pricing for 87% of their locations, resulting in an annual savings of \$62,783.

Our Benefits

- UCH can confidently budget their waste removal expenses since ICS was able to lock in pricing and cap rate increases for the duration of the contract.
- The team at UCH saves time by having a single point of contact for all waste related issues.
- United Church Homes now has peace of mind knowing they're not overpaying for their waste management services because the team at ICS is auditing their invoices and managing their contracts each month.
